Fairview School  
Guzape, Abuja.

Dear Madam,

### **APPLICATION FOR PART-TIME ROBOTICS FACILITATOR AND PROGRAMMING INSTRUCTOR**

I am writing to express my interest in the position of part-time Robotics Facilitator and Programming Instructor at Fairview School. With my background in both software development and teaching, I am confident that I can contribute to your institution by delivering engaging and effective lessons in robotics and programming.

I hold two diplomas in technology-related fields and have gained practical experience as a junior software developer, working on several programming projects. In addition, I have extensive experience teaching Python programming to young learners. I have developed weekly schemes of work and lesson plans that cater to different age groups, including children as young as five. My teaching style emphasizes practical, hands-on learning,

which I believe is critical to helping students grasp complex concepts like robotics and coding.

I am particularly passionate about teaching young students how to think critically and solve problems through programming and robotics. By fostering creativity and analytical skills, I aim to inspire the next generation of innovators. My lessons are designed to be both educational and enjoyable, creating an engaging environment that motivates students to explore these fields further.

I would welcome the opportunity to discuss how my skills and experience align with Fairview School's educational goals. I am available for an interview at your convenience and look forward to the possibility of contributing to your team.

Thank you for considering my application. I look forward to your response.

Sincerely,

SHAMMAH ANGAYE
